SWEDISH STYLE: Thinking Outside of the Big Box

Beautiful. Simple. Versatile. Airy. Livable. Timeless.

All these words define Swedish styling – one of the most enduring and popular design choices for homeowners seeking to create beautiful, yet livable spaces.

But real Swedish furniture doesn't come ready-to-assemble and flat-packed in a box, as Modern History proves with its large selection of Gustavian-inspired, heirloom quality furnishings.

These pieces are inspired by neoclassical antiques, and like them, they have a timeless beauty and appeal.

Featuring pared down lines, architectural inspirations, simple carving and beautiful hand-applied faux finishes, these furnishings are remarkably versatile. They're not just easy to live with, but also easy to incorporate into other design styles and period.
